SONIC CRAWLER 190KN  
WORK POSITION

## ABOUT US

With more than 25 years of experience in special purpose machine design and more than 40 qualified employees, we develop efficient methods for your requirements that lead to economically lucrative solutions.

All important aspects are located at Kirschenhofer Maschinen GmbH in-house. From design to assembly, but also in the areas of training and service you will receive comprehensive support from us.

We only work together with absolutely reliable, selected suppliers. When looking for solutions to complex requirements, the focus is always on high accuracy and punctuality.
